## ANNUAL MEETING.

— OF THE —

# Historical and Scientific Society

OF MANITOBA.

The thirteenth annual meeting of the Society was held in the City Hall, Winnipeg, on the evening of February the 21st, 1893.

Mr. John MacBeth, the President, occupied the chair.

The executive council presented their

### THIRTEENTH ANNUAL REPORT:

It seems appropriate to briefly review the history of the Society since its inception some thirteen years ago.

The Society was organized at a meeting held at the old Court House on Main Street, Winnipeg, on January 23rd, 1879.

A committee was appointed to secure a charter, and after several adjournments, the late Chief Justice Wood was elected the first President, in the building in which he had presided as Chief Justice over some of the historical trials that had taken place there.

There were twenty-six original members as follows:—Hon. Joseph Royal, at present Lieutenant Governor, of the North-West Territories, Chief Justice Wood, U. S. Consul Taylor, The Hon. John Norquay, late Premier of Manitoba, Rev. Dr. Bryce, Prof. Hart, Dr. Cowan, now of St. Paul, U.S.A., Rev. Dean Grisdale, Rev. Dr. Robertson, Dr. Pinkham, since Bishop of Calgary and Saskatchewan, Canon O'Meara, Hon. A. G. B. Bannatyne, Hon. Gilbert McMicken, Hon. A. A. C. LaRiviere, Edouard Richard, J. F. Bain, since Mr. Justice Bain, S. C. Biggs, Jas. H. Rowan, R. H. Kenning, H. M. Drummond, D. U. Campbell and Thos. Spence.

The Society has been continually in existence ever since. It has published transactions to number forty-four, and has built up a library of about 10,000 volumes.

During the first year of active work it purchased the valuable collection of North-West literature owned by the late J. A. N. Provencher, a well known French Canadian journalist.

The second annual report in 1881 refers to the opening of the City of Winnipeg's public library, a work undertaken by the Society upon request, and over which it has exercised control and supervision ever since.

Of the number of published transactions the Rev. Dr. Bryce, who was a member of the first executive and has been a member ever since, has contributed eight, Mr. C. N. Bell, six, the late Alex. MacArthur, three, and among the number of its contributors may be mentioned Mr. E. E. Thompson, J. Hoyes Panton, R. E. W. Goodridge, Dr. John Rae.

The past year has not been one remarkable for the number of papers published by the Society, in fact it has been less than at any previous time in its history.

#### MEETINGS.

At a meeting held on December 1, 1892, three addresses were given by members of the Society on matters relative to the Hudson's Bay Company; the first by the Rev. Dr. Bryce upon "The Bibliography of the Hudson's Bay Company," briefly sketching the scope of the various publications relating to the early explorations in North-Western Canada, both prior and subsequent to the advent of the H. B. Co.

He also dealt with the historical values of the many works relating to the early history of Rupert's Land, giving the names of nearly all the authorities thereon regarded as such by North-Western historians.

The second by Mr. C. N. Bell, F.R.G.S., upon "The Establishment of the Fur Trade and Discoveries Inland since the

Organization of the H. B. Co." He briefly traced the paths of the early traders throughout this Northwestern country and touched upon the organized avenues by which in the early days by lake and forest and stream the voyageur brought his furs to the market in Montreal.

The third by Mr. Archer Martin on "The Land Tenures of the Hudson's Bay Company and the Titles of the Selkirk Settlers," dealt at length with the legal questions in connection with the grant of the District of Assiniboia by the Company to Lord Selkirk and the legal position of the inhabitants of Rupert's Land under the Company and Earl's jurisdictions, and pointed out there were estates in fee simple granted by both these powers, although, so far as originally granted, only few in number. This has had the effect of apparently introducing the law of primogeniture into this country at that period. The paper has since been published in *The Western Law Times of Canada*, for December, 1892.

#### MEMBERS.

The Society mourns the loss of two of its members, one a corresponding the other honorary. Sir Daniel Wilson, President of the University of Toronto, died August 7, 1892, after a protracted illness.

He was born in Edinburgh January 5, 1816, and after winning a reputation as one of the historians of his native town, he came to Canada and spent years of the most vigorous period of his life in the service of his adopted country.

When the University was burned he threw all his old time activity into the work of rebuilding, and the restoration had hardly been completed ere the self sacrificing President passed away, his life shortened by his exertions in her behalf.

Another, Horace Belanger, Chief Factor 'H. B. Co. at Norway House, was drowned near there October 1, 1892.

His name and figure were well known throughout the Canadian North-West and in almost every annual report his

name appears as a generous donor to this Society. His generosity and honesty of purpose were well known among those with whom he came in contact.

Belonging as he did to a type of the old Nor'-Wester now passing away, no greater tribute to his memory could be paid to him than that by the poor ignorant Indians who traded at his post. To them he was the soul of honor and among many honorable men with whom they traded, none indeed was held in greater reverence by them than Horace Belanger. He never did them an unkind act.

It is pleasant to note that His Honor Lieutenant Governor Schultz has become a life member in the usual manner.

The number of active members has unfortunately decreased.

There is an impression abroad that the Society is a close corporation and the result has been that while the original members have decreased in number by death or removal yet the influx of new members has not been proportionate to the loss.

It is to be hoped that some effort will be made to dispel the idea and that by the addition of new members the Society may receive a continued impetus in its active work.

#### MUSEUM.

The same complaint that has been made for the last two years is reiterated again in reference to the museum.

Its utility is being impaired by the present confined quarters and the Society must in the performance of the duties imposed upon it by its charter of incorporation take the necessary steps to obtain increased room.

#### LIBRARY AND READING ROOM.

There is also a complaint in reference to these. The number of associate members has so largely increased that at times access to some of the papers and magazines is difficult

It is e  
quarters  
creased t  
empty sh  
books on

The S

The r  
Committe  
latter sho

All of

It is evident that the Library has again outgrown its quarters. Some arrangements must be made by which increased floor space can be obtained. At present there are no empty shelves and the librarians find difficulty in putting up books or arranging them in consecutive order.

The Society, at the request of the Provincial Government, has decided to contribute to the Manitoba exhibit at the Columbian Exhibition. It is probable that for a short period at least the crush in the museum and elsewhere may be partly removed by the transportation of this exhibit to Chicago.

There will perhaps be considerable expense in the mounting of the very fine musk-ox skeleton and the placing of it and the other exhibits in a condition for the Exposition.

It is probable that an effort will be made during the coming year to influence the Provincial and Dominion Governments to have copies made of some of the more valuable manuscripts and papers in the Hudson's Bay House in London.

It is deeply to be regretted that efforts have not been made with success before this to have those documents relating to the early history of this country placed among the Society's archives.

The reports of the Library Committee, joint Library Committee and the Treasurer are hereunto appended and the latter shows the usual annual surplus.

All of which is respectively submitted.

J. T. HUGGARD,  
*Recording Secretary.*

## Report of the Library and Publication Committee.

The Library and Publication Committee begs to report that it has devoted a considerable amount of time and attention to the several lines of work entrusted to it by the Society.

Early in the year the work of arranging the Society's files of newspapers and periodicals engaged its attention. The attic in which they had been in process of collection for the past ten years was filled with commodious shelving on all its four sides and after a good deal of dusty work an array of pigeon holes capable of tolerably ready reference has been arranged. The room now presents an orderly appearance and the periodicals of earlier years, instead of being a discredit to the Society and a source of danger from fire, are a valuable adjunct to the reference library. The librarians have made, under the direction of the Committee, a complete shelf list of the books in the circulating parts of the library. This is an inventory of the books in the order in which they stand on the shelves and will be of great value in stock taking by enabling the librarians to detect losses or sundry omissions in cataloguing.

The work of keeping a systematic file of city daily papers has been begun and the "Free Press" of the past nine years, bound into eighteen bulky volumes, awaits the erection of a case in which it may be preserved and in which it may be easy of access to those who wish to consult it. It is a matter of regret that the Society's quarters are so small and are already so overcrowded that even the moderate amount of room required for this valuable addition to its library cannot at once be secured.

The Committee has naturally directed its main energies to making such additions as it could to the already valuable library of North-West literature which adorns the Society's shelves. This collection now numbers 389 volumes of which

 Treasurer.

120 have been added during 1892—a larger number of additions than in any previous year of the Society's history. This increase includes a complete set of British Government papers relating to the Hudson's Bay Company—a fine tall copy, well bound in three volumes—a scarce copy of Robson's Residence in Hudson's Bay, etc. Indeed a large majority of the volumes added during the year have been books now out of print, which had to be laboriously searched out of the collections of second hand dealers, and which are yearly becoming scarcer and more costly. While the most of the appropriation at the disposal of the Committee has been spent for books of this kind which ere long will not be procurable at any price, it has by no means neglected more recent publications and every work of any merit whatever, relating to the North-West has been ordered.

A new departure has been made by beginning a North-West portrait gallery. An appropriate beginning was made with the photograph of the council of the Hudson's Bay Company which assembled in this City in August, 1887.

Mr. T. W. Taylor, now mayor of the City, made a valuable donation to the historical library during the year by donating a large number of pamphlets especially relating to the City. Many of these were transient, relating to the early municipal history of Winnipeg, and cannot be replaced.

The usual exchanges have been received from the Dominion, Provincial and U. S. Governments and from the scientific societies which have hitherto exchanged with us.

The reference part of the library has not been neglected. The main addition to it has been Dictionary of National Biography, edited by Leslie Stephen and Sidney Lee, of which 33 volumes carrying the series into the letter L, are now on the shelves, and the succeeding volumes will be added as they appear. This work from its width of scope, its copiousness of treatment and its accuracy is invaluable to the student.

## Report

The Join

Your Con  
and periodic  
the represen  
ings held du  
work on the  
give rise to t

The publication department of the Committee's work has been lighter than usual this year. It has undertaken the publication of only one of the four papers read before the Society, viz: the President's essay on "The Social Amusements of the early settlers in the Red River Settlement and Rupert's Land." This paper will be published in due course. In addition to this one, another of the above mentioned four, that of Mr. Archer Martin entitled "The Hudson's Bay Company's Land Tenures and the Titles of the Selkirk Settlers," was published in *The Western Law Times of Canada*, for December, 1892.

The Committee has held five meetings during the year and these have been attended by an average of nearly four members.

As a legacy to its successors the Committee leaves the task of re-cataloguing the North-West and reference departments of the library. A more systematic arrangement is much needed and would greatly enhance the accessibility and therefore the value of these portions of the library on which not a little money and not a little care in collecting have already been expended.

All of which is respectfully submitted.

ANDREW B. BAIRD,  
*Chairman.*

---

### Report of the Joint Library Committee.

The Joint Library Committee reports as follows:

Your Committee has to report the addition of new books and periodicals as in previous years. The non-attendance of the representatives of the City Council at many of the meetings held during the year has thrown almost the whole of the work on the representatives of the Society. As this is apt to give rise to the impression that the Society wishes to guide

matters for its own advantage your Committee would urge a more regular attendance at the meetings of the representatives of the Council for the coming year.

During the year the contract for the magazines and periodicals was awarded on tender, and was given to Russell & Co. of this City, the lowest tenderer, at very satisfactory rates. A number of new magazines such as *The Arena*, *The Literary Northwest*, &c. have been obtained. The amount of the tender for magazines and periodicals was \$195.50. The number of books added during the year was 213 at a cost of \$263.26. These were distributed among the following departments: History, 31; Fiction, 93; Science, 23; Voyages and Geography, 8; Biography, 20; Poetry, 5; Literature, 24; Miscellaneous, 8.

The suggestion book open to readers has been faithfully used, and the greater number of books asked for and falling within the sphere of the City Library's operations have been ordered. Sometimes disappointment arises on the part of subscribers who expect works in theology, scientific or industrial subjects of a reference kind, and the like, to be obtained. As the amount at the disposal of the Committee for books is less than \$400 a year it will be seen that the expectation referred to is unreasonable. The demand is the less to be considered, since the Historical Society has added a large number of books to its Reference Library during the year, and the use of these is a matter of favor, allowed to citizens who desire to use them. The balance of the \$400 unexpended is expected to carry on the Committee till the first of May. All of which is respectfully submitted.
